

Motif Inclusions

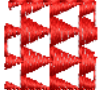

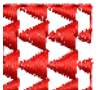

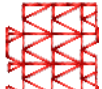

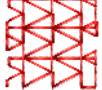

Motif Samples

Motifs available in EmbroideryStudio can be one of two types – single or two-part. Single motifs can be used on their own in a **Motif Run** or Motif Fill. Two-part motifs consist of two separate motifs combined to form a single pattern for Motif Fills.

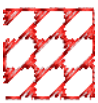

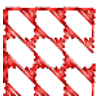

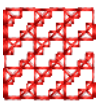

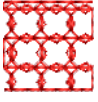

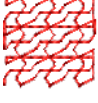

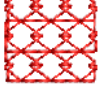

This section contains samples of the motifs available in EmbroideryStudio. Use these tables to see what a particular motif looks like. The table also includes recommended size and layout specifications. If they have changed for any reason, revert to the settings using the values in these tables. See [Motif runs](#) and [Motif fills](#) for details.

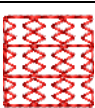

Single motifs

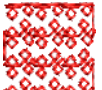

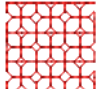

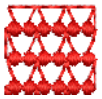

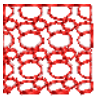

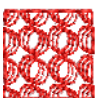

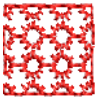

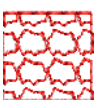

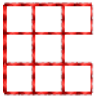

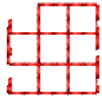

The following table shows single motifs available in EmbroideryStudio together with their size values. It also shows the spacing values for **Motif Runs**, and column, row and offset recommended values for Motif Fills.

Two-part motifs

The following table lists the two-part motifs that are available in EmbroideryStudio, and the resulting pattern. It also shows the size, column, row and offset values for Motif Fills.
